

“USMCA: A Deathblow to American Sovereignty”

TALKING POINTS to use when calling Congress and President Trump on why they **MUST** be in **OPPOSITION** to the United States-Mexico-Canada Agreement (USMCA):

1. Why is this so-called “agreement” more than 2,300 pages long? Are you going to read all of these pages carefully before you vote on this?
2. Why is there a Free Trade Commission set up, similar to the European Commission, that will override Congress’ role and it also has the power and authority to make changes to the agreement **WITHOUT** Congress’ consent as what happened with the European Union?
3. WHO will be appointed to this Free Trade Commission?
4. Why are the words “Sustainable Development” mentioned numerous times in the chapter on the Environment. Sustainable Development is the UN Agenda 21/2030 language for controlling all of mankind as United Nations bigwigs have actually stated themselves many times over? This is in “their” words, not ours.
5. This so-called “agreement” is in actuality a TREATY between nations and should be treated as such requiring passage by 2/3 of the U.S. Senate for approval into law?
6. Are the “Dispute Settlement” bodies set up in Chapter 31 international courts as were set up in NAFTA Chapter 11 that have the same power of overriding OUR Constitution and courts & there is NO APPEAL? Are you setting up more international courts in these new pacts that will be considered Superior to our U.S. Courts and Constitution?
7. If it is “Free Trade”, then why do you need International Regulatory Bodies and regulations that rule over the countries involved?
8. Are you setting up “OPEN BORDERS” for America through Chapter 23 by “requiring each country to ensure that migrant workers are protected under its labor laws, whether they are nationals or non-nationals” of the country they are residing in?
9. Are you placing America under international laws and rule by stating in Article 31.22 that “A party shall be deemed to be in compliance....if it is a party to and is in compliance with the 1958 United Nations Convention on the Recognition & Enforcement of Foreign Arbitral Awards...”? (emphasis added)
10. Article 26.1 “North American Competitiveness Committee”. Are you speeding up the plan for America to become part of a North American Union i.e. a regional government like the European Union? President Trump stated “America First” and this is the antithesis of America First. We **REFUSE** to be a part of a “Regional Government Union Bloc” under the authority & control of a Godless world-government body such as the United Nations or the World Trade Organization!!
