

THE LONE STAR AGENDA PLEDGE

A Commonsense Plan to Unite All Texans

SAVE TEXAS 2020!

Polls show that Conservatives are moving away from the Republican Party of Texas (RPT) because they believe RPT leaders are not representing their values and do not work hard enough to distinguish the RPT from the national Party. By comparison, Democrats are enthusiastic about the Texas Democratic Party because they believe TDP leaders work to represent their values and distinguish the TDP from their national Party.

A new agenda is needed to unite Texas Republicans before the 2020 election. As a Texas Conservative, I support *The Lone Star Agenda* to restore the values of Conservatives and RPT voters in Texas, and to reaffirm Texas as a unique and vital state to reverse a rising Blue Tide.

Family Rights and Personal Liberty

We place the constitutional rights of Texans to liberty and self-determination for themselves and their families above the desires of government officials and special interests:

1. Allow families to make mental and physical health decisions for themselves.
2. Stop wrongful removal of children from families by restoring due process rights for parents.
3. Stop local ordinances that interfere in private employer-employee relationships.
4. Increase protections for unborn Texans.

Transparent and Representative Government

We must reform and protect the Texas institutions that are critical to our historical identity as the Lone Star State:

5. Improve election integrity (paper ballot backup audit trail; citizenship verification).
6. End taxpayer funded lobbying.
7. End union dues withholding from public sector paychecks.
8. Protect Texas monuments.

Justice and Security

We must improve the security of Texans to be safe in their communities and free from injustice:

9. Secure the southern border (interior enforcement to end the “magnet” effect).
10. Stop human trafficking.
11. Protect the rights of Texans to bear arms.

I hereby commit to support *The Lone Star Agenda* and to resist every effort that would divide me and my community from the promise of life, liberty and the pursuit of happiness and prosperity that must be protected in Texas:
